Animation example: (Video 2 min)
Typhoons and Pacific water temperatures

An aerial photograph of a rural landscape. In the foreground, there are numerous rectangular agricultural plots, some green and some brown, separated by narrow paths. A small cluster of buildings is visible in the middle ground. A wide river flows through the center of the image. The background shows a vast, flat expanse of land with scattered trees and structures under a clear sky.

2) what are the barriers to doing your research? (lack of data, lack of computer models, lack of collaborators might be some barriers)

Access to timely reliable data

3) what do you hope to learn or take away from this workshop?

Inspiration and contacts
