

Cyberinfrastructure and Water Resources in the Lower Mekong Region

Lightning Talks

Presented by

Dr. Khin Su Su Htwe

Associate Professor

Department of Civil Engineering
Yangon Technological University

Recent Research for Bago Flood under Our Department

Flood Risk Assessment for Bago River

barriers for the research

- can't use commercial software in our country
and use free software
- can't get reliable and sufficient data

Today Flooding in Bago Region

Bago area flooding (2013)

By attending the workshop, I can get more information to implement our research for water security from best practices among participants
