# Can Tho University (CTU), Vietnam
College of Environment and Natural Resources (CENRes)
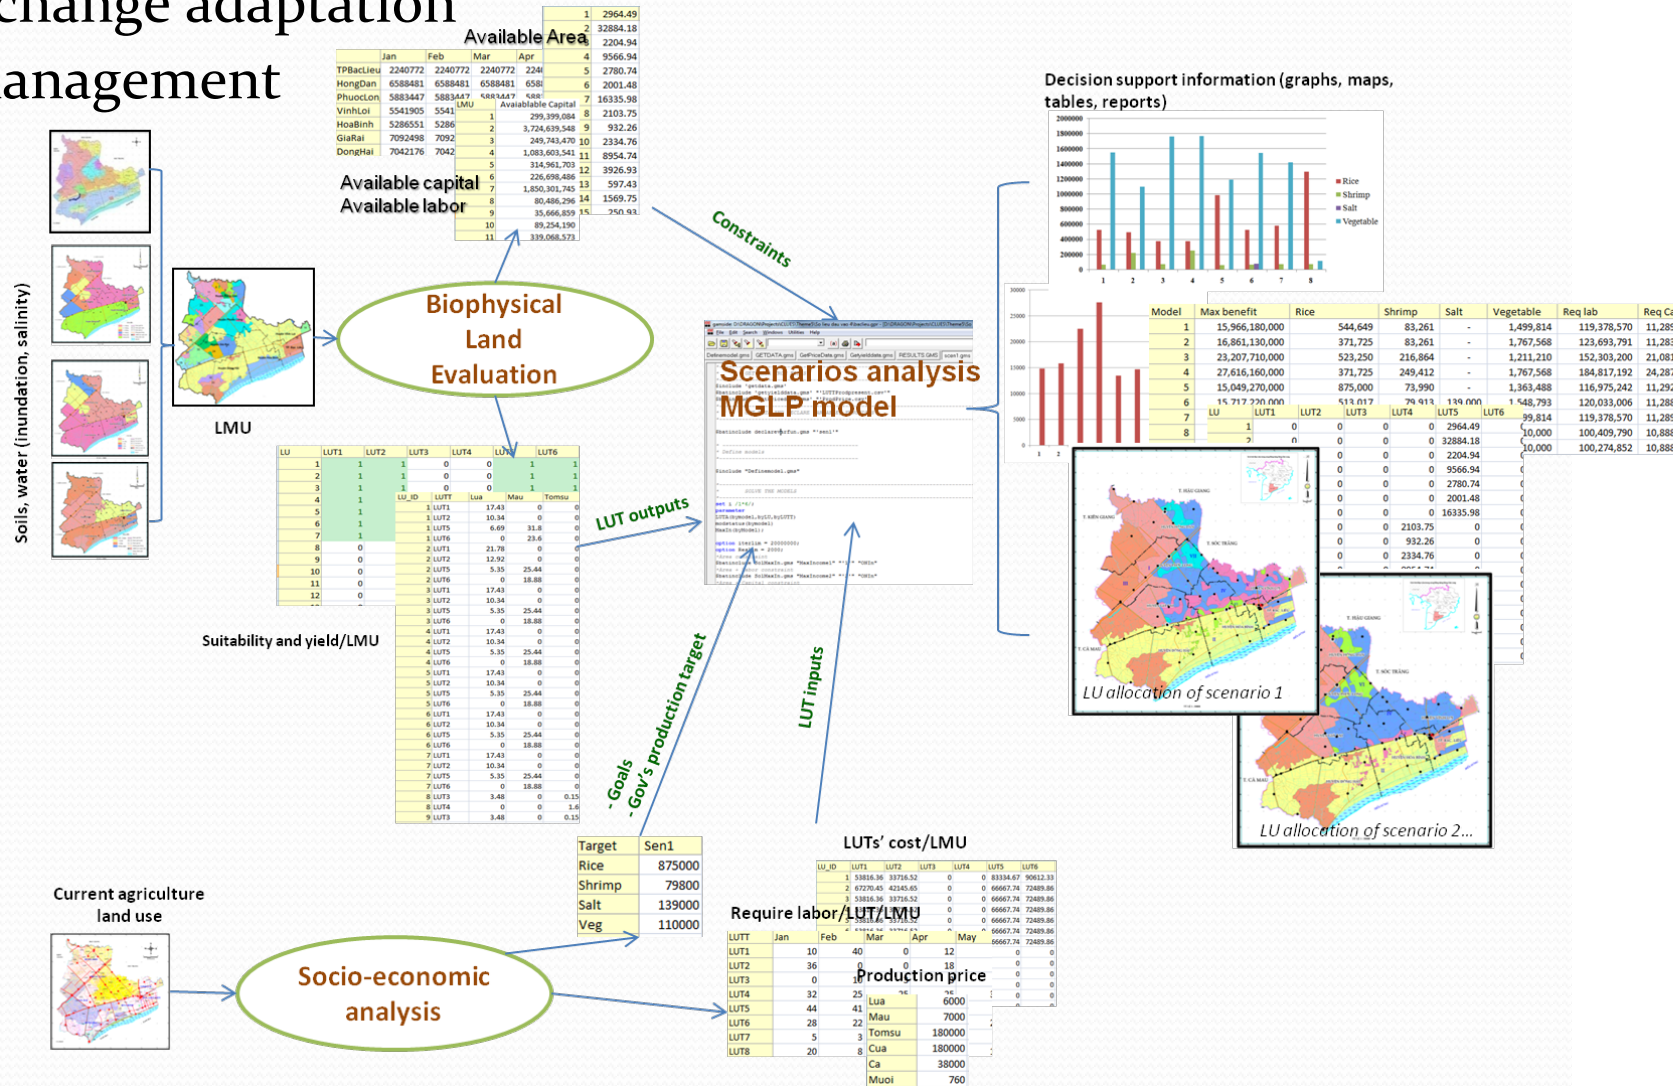

Nguyen Hieu Trung

Associate Prof., PhD. Dean

Research interest

My research region is the Mekong Delta of Vietnam, on:

- Integrated land use analysis
- Climate change adaptation
- Water management

LU allocation of scenario 1

LU allocation of scenario 2...

Barriers

- Data quality (metadata, data uncertainty).
- Big data analytics tools.
- Financial support.

Expectation from the Conference

- Collaboration opportunities
- Manage and sharing big data
- Produce useful knowledge from available data
- Effective visualization and communication of derived knowledge
